

# 2018 CATALOG

Photo Credit:  
Nagwa Seif Interior  
Design

# Hand Crafted

## CONSTRUCTION

Our standard frame construction are as follows:

4/4 kiln dried alder hardwood.

Corner blocks, double doweled, glued & stapled for extra strength.

Our foam is 1.8/2lb with center crown for extra loft and 1.5 oz fiber wrap.

Our pillows are 100% polyester.

*Upgrades are available upon request such as 5/4 frames, 8 way hand tied base, HR 2.5 lb foam, trillium, 10/90 down & feather and increasing ratios.*

# Base color finish options:

Each of our styles shown with wood requires a finish. The colors available are shown below. Please be sure to specify on your order which finish you would like. **Finishes slightly vary due to natural wood color, grain & other variables.** We also match samples, they have to be on a wood piece and mailed to us to provide a strike off-we do not go off a photo as printer may be slightly off in tones. Fee will apply for special stains.

Ebony

Coffee bean

English Walnut

Mahogany

Pecan

Maple

Gray

White

# Nail placement & sizing:

Most items shown with nails come with a standard nail size and spacing, however you will need to specify the color.

When adding nails to an item that normally does not come with nails, be sure to specify the size, color, spacing and placement. (sizes & color shown in photo below).

FRENCH NATURAL

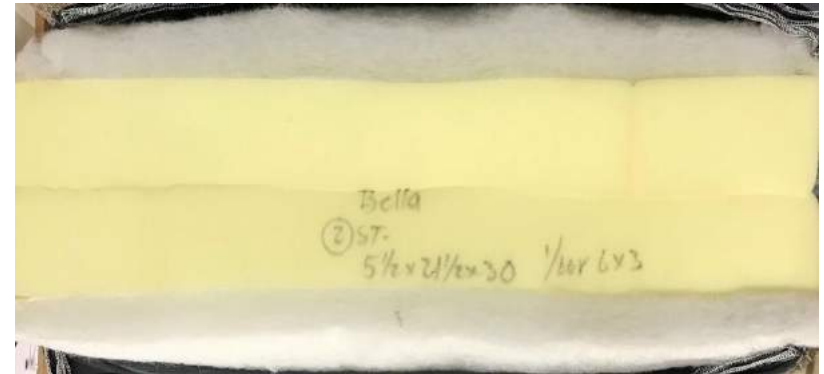

SILVER

CHROME

ANTIQUE BRASS

# Cushion options:

Most loose seat cushions come with standard foam 1.8 w/center core/crown unless specified otherwise and a 1.5 oz fiber wrap. Picture on the right.  
Upgraded foam such as HR 2.5lb is available.

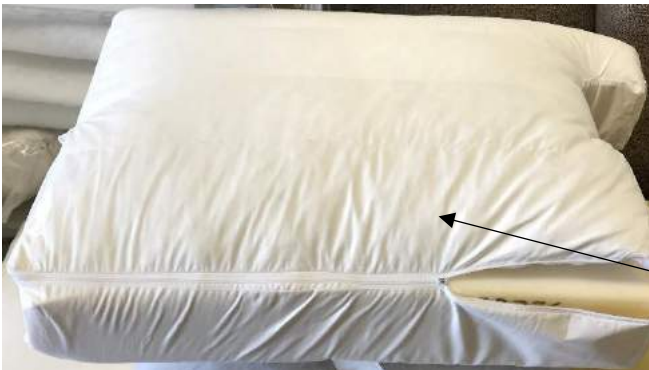

Our standard back pillows come with 100% polyester. Picture on the right.

*You have the option to upgrade to a fill that will fit your personal comfort.*

**10/90 Down:** A blend of 10% down and 90% feathers. Creates just the right amount of softness! Make sure to fluff and flip these cushions!  
**Trillium Fill:** A blown micro-denier fiber that has incredible silky down-like fill that does not clump or mat. The gel fiber allows each cushion to stand up night after night. It is moldable for maximum comfort. Below is a trillium/down seat casing, there is still a foam core with soft density and channels throughout the cover in order for the feather and down are evenly distributed. Our down/trillium back pillows would be the same construction as the seat cushion except there is no foam core.

Customers who decide on down or trillium in their cushions/back pillows should expect wrinkles to possibly show on cushion covers. Depending on the content of the fabric; Linens and thin cottons will most likely have the most wrinkles show through.

A modern, minimalist living room with a large, light-colored sectional sofa. To the left is a long, low fireplace with a glass front. The room features large windows and a glass door leading to a balcony with a view of a city at sunset. The text 'SOFAS' is overlaid in a large, dark, serif font on the left side of the image.

SOFAS
